Sara Wiswall
Town Clerk
28 Town Office Rd.
PO BOX 173
Jamaica, VT 05343

Project Name: JAMAICA BO 1442(42)

Structure Identification: Bridge 32 over the West River

Dear Sara:

VTrans has completed work on the Conceptual Plans for the above-referenced project and has uploaded plans to the project external website located at the link provided for your review and comment.

<https://outside.vermont.gov/agency/VTRANS/external/Projects/Structures/19J226/5%20-%20Conceptual%20Plans.pdf>

We would appreciate any comments the Town may have by April 22, 2022. The next step in our process is to begin preliminary design and plans. As we develop preliminary plans, we would typically hold a public informational meeting. VTrans will notify the town when we are ready to hold this meeting.

This bridge is within the town's maintenance responsibility, therefore, the funding for this project will be from federal, state and local sources. The funding split for this project is 80% Federal, 15% State and 5% Town. The conceptual estimate to engineer, acquire right of way and construct this project is currently \$4,035,722. Construction is currently planned for 2025. However, that date could change depending on either funding constraints or the right-of-way acquisition process.

If you have questions, please contact me at (802) 917-8514 or Gary.Laroche@Vermont.gov.

Sincerely,

Gary Laroche, P.E.
Structures Project Manager
