Moved away from TurboTax to TaxAct. When she filed the taxes she thought the homestead was filed, the program did not file the taxes correctly. She did not realize this until she got the bill from the state.

This was a computer glitch. They are requesting the \$431.84 be abated. This was not due to sickness or disability.

If you don't file by April 15th you get penalized up to 8% which is what Jamaica does.

Kathleen thinks the state should do a better job at notifying.

Pat asked if they had talked to TaxAct people. Kathleen said they have not pursued that route.

Jessica made motion to reject. Kate seconded.

Motion was withdrawn.
